

## CLASSIC BARBER CAREER AND LICENSING INFORMATION

### “Career Information You Should Know”

#### **Illinois Licensing Requirements for Barbering**

Each applicant must meet the following requirements:

1. Is at least 16 years of age.
2. Has graduated from a high school or equivalent.
3. Has graduated from a school of barbering or school of cosmetology approved by the Department, having completed a total of 1500 hours in the study of barbering extending over a period of not less than 9 months nor more than 3 years. A school of barbering may, at its discretion, consistent with the rules of the Department, accept up to 500 hours of cosmetology school training at a recognized cosmetology school toward the 1500 hour course requirement of barbering. Time spent in such study under the laws of another state or territory of the United States or of a foreign country or province shall be credited toward the period of study required by the provisions of this paragraph.
4. Has passed an examination caused to be conducted by the Department or its designated testing service to determine fitness to receive a license as a barber.
5. Has met any other requirements of this Act.

**Safety Requirements:** The practice of barbering involves the use of sharp implements as well as chemicals that could be hazardous. Attention to proper safety procedures, which protect both client and technician, are very important, and will be taught during the course.

**Physical Demands:** The physical demands for a barber are primarily the extensive use of the hands for salon services and the long periods of standing which are required for the services.

**Compensation:** According to the United States Department of Labor, salon professionals can average up to \$50,000 per year including tips. Some of the main factors that determine income include the size and location of the salon, hours worked, the tipping habits of clients and competition from other salons and shops. A cosmetologist’s ability to bring in and maintain regular clients is another factor in determining potential earnings. According to the US Department of Labor, many cosmetologists and other personal appearance workers receive commissions based on the price of the service, or they earn a salary based on hours worked. Others in this industry are self-employed. Nearly every professional in the cosmetology industry receives tips and commissions for the products they sell. Some salons pay bonuses to employees who bring in new business.

According to the US Department of Labor, employment of hairdressers, hairstylists, cosmetologists, skin care specialists, manicurists, pedicurists and shampooers is projected to grow 13% through year 2026.

#### **State Educational Requirements**
